A PERFECT TONIC & APPETIZER.

ELECTRICAL ENGINEERING DEPARTMENT

THE COURSE in this department covers all the modern applications of electricity and is so condensed and divested of superfluities as to bring it within the reach of the average young man who has to make his own way in the world.

Each student has to manufacture in the workshop a large portion of the apparatus.

The department is thoroughly equipped with machinery, instruments, and other necessary appliances.

DEPARTMENT OF CIVIL AND MINING ENGINEERING

Affords an opportunity for thorough instruction in mining and surveying considerably shorter than the university course of four years. The general method is to *specialize*, so that those who wish can take up one subject only or as many as may be deemed advisable.

Six months devoted exclusively to mining engineering will give the average student a full, *practical* knowledge of the subject.

Any course or group of studies may be selected.

The **Civil Engineering Course** includes:—Geometry, Trigonometry, Draughting, Strength of Materials, Surveying.

The **Mining Engineering Course** includes:—Assaying, Blowpipe Analysis, Mining, Geology, Mineralogy, Surveying.

The **Metallurgical Course** includes:—Chemistry, Assaying, Metallurgy.

Business houses needing bookkeepers, stenographers, typewriters, cashiers, clerks, foreign correspondents, telegraphers, electricians, or clerical labor of any kind, can be immediately supplied by telephoning

Open evenings until 9, tel. Mint 257 (German eye water 50c) 1071½ Market Street near 7th. The American Authority on matters of Sanitation and Hygiene, says: "George Mayerle's latest and most improved method in examining and correcting most complicated cases of defective eyesight has been approved by the HIGHEST AUTHORITIES."—The American Journal of Health, New York, October, 1898. A reporter convinced.—Numerous inquiries made by The Bulletin reporter among those who wear Mr. Mayerle's glasses regularly showed clearly that in each case perfect satisfaction had been given, and this fact applied to numerous complicated cases.—Extract from the S.
